PROFILE

Dedicated **Full-Stack Developer** with 6 months of internship experience at Besant Technologies. Proficient in front-end technologies, including **HTML**, **CSS**, **Bootstrap**, **JavaScript**, and **React.js**, with a strong passion for crafting intuitive and user-friendly web interfaces. Skilled in **Python** programming, database management using **MySQL**, and version control with **GitHub**. Experienced with modern development tools like **VS Code** and adept at integrating cutting-edge **JavaScript** frameworks. Focused on delivering innovative solutions and contributing to impactful projects through seamless front-end and back-end development expertise.

SKILLS

TECHNICAL SKILLS

- **Front-End** - HTML, CSS, JavaScript, Bootstrap, React JS
- **Back-End** - Python, Flask
- **Database** - MySQL

SOFT SKILLS

- Team collaboration, Problem solving ,Time management , Leadership

PROJECT

Portfolio - [abdulajeess.tech](#)

- Designed and developed a modern personal portfolio using HTML, CSS, and JavaScript, incorporating smooth animations and interactive elements to enhance user experience. The portfolio showcases my skills, projects, and expertise in web development with a clean and responsive UI. It includes sections for my experience, technical skills, and completed projects, ensuring a visually appealing and user-friendly design. The addition of animation effects improves engagement, making navigation seamless and intuitive. Optimized for performance and accessibility, this portfolio serves as a professional representation of my work in frontend development. **(HTML,CSS,JS)**

Employee Management System: - [link](#)

Developed an Employee Management System (EMS) using Python, designed to efficiently manage employee records, including adding, updating, and deleting data. The system features role-based access, attendance tracking, and payroll management, ensuring streamlined workforce operations. Built with a user-friendly interface and secure database integration, it optimizes accuracy and efficiency in HR processes **(PYTHON)**

Enterprise Resource Planning (ERP): - [link](#)

Developed an Enterprise Resource Planning (ERP) system using MySQL for efficient business process management. Designed a structured database to handle modules like inventory, employee records, finance, and sales. Ensured data integrity, optimized queries for performance, and implemented secure access controls. This ERP system streamlines operations, enhances productivity, and supports data-driven decision-making. **(MYSQL)**

My Own Project :

Designed and developed Pillar97.com using HTML, CSS, and JavaScript, ensuring a fully responsive and user-friendly experience. Built with a modern layout, smooth animations, and interactive elements to enhance engagement. The website adapts seamlessly across all devices, offering a clean and professional UI. Optimized for performance, accessibility, and scalability, Pillar97.com reflects a strong focus on frontend development and design expertise. **(HTML,CSS,JS)**

Online Food: - [link](#)

I Developed a Food Ordering App using React.js, featuring a user-friendly interface for browsing, adding, and managing food items. The app allows users to add items to their cart, place orders, and remove selected items seamlessly. The implementation of state management ensures smooth updates, while responsive design enhances the user experience across devices.

• Key Features:

Add & Remove Items – Users can easily add food items to the cart and remove them if needed.

Order Management – A streamlined process for selecting and confirming orders.

Dynamic UI Updates – React state management ensures real-time updates.

Responsive Design – Works across different screen sizes using CSS and Bootstrap.

• Technologies Used:

React.js – For building the interactive UI.

CSS & Bootstrap – For styling and responsiveness.

State Management (useState, useEffect) – To handle cart and orders.

This app enhances the food ordering experience with intuitive interactions and a sleek design. **(REACT.JS)**

EDUCATION

- **2021 - 2024** | J.P.College of Arts & Science | Information Technology **(B.Sc)** - CGPA - 8.2
- **2020 - 2021** | Veerama Munivar Hr. Sec. School | **(HSC)** - 81.33%
- **2018 - 2019** | Veerama Munivar Hr. Sec. School | **(SSLC)** - 73.6%
- **2024 - 2024** | Besant Technologies (6 months of internship experience) **Full-Stack Developer**
